

Press Release : Pre-Venditalia 2016

Be sure to visit the SandenVendo stand (**Hall 4 Stand No. C37-D50**) at the forthcoming Venditalia Show (4-7 May 2016 – Fiera Milano City - Italy).

SandenVendo, known for its long history in manufacturing reliable Vending Machines will be showcasing their latest product range at Venditalia, the biggest Vending event in Europe.

The SandenVendo stand will be introducing the company's latest development in the G-Caffè range. We proudly present our **SandenVendo Coffee brewer** which delivers authentic espresso flavors and aromas in a way the Italians do best. Also, we show the innovative and patented water injection system for the mixer, a precise temperature management with the lowest possible energy consumption, our new ingredient canisters and much more stunning patented novelties. We trust when you see The new G-Caffè in person, you will see the machine attracting people into sharing the relaxing moment of the coffee experience.

Furthermore, the successful DESIGN LINE range has been extended to new G-Drink DM and G-Snack SM models, unifying the control system and the software. Smaller models are produced with a modular cabinet system, which is developed to cleverly overcome the problems of moving equipment through narrow doorways.

SandenVendo will also present a revolution in its G-Snack range. The new G-Snack unit was developed by first considering thoroughly the well-being of the end users.

So, don't miss out. Come and see us, have a chat and try the equipment. See you in Milan!
